Now will you all just please leave us alone until court. Becky really suffered a mild attack. I am not a scam the last investor I ever took for xtagged was Shar Scott Jenkins last Sept ,14, 2009 and it was a cashier's check for \$2500.00 look

<http://www.xtagged.com/uploads/IMGA0019%283%29.JPG>

To pay back Logan, Ryions best friend because he was going to miss out on his L.D.S mission or I would have made him wait also. Are you ready for this "Shar Scott Jenkins is "WiserMan" Yea the guy on the cashier's check and is co owner of xtag with Steve and your clients blogged about wiserman you should read it. Seven months ago over lunch Shar vowed to us not to smoke tobacco cigars anymore because he wanted to be involved with wiser technology he wanted to invest but I was not taking investors for wiser technology as I explained above. Now he is tobacco free so we named him WiserMan so that means Shar has been around and will be in court to testify in my behalf. I have never taken any other investor's period. My aunt that had invested in xtagged and knew what ryion and these men were doing gave Beckie and I a new loan to start Wiser e-cig which turned into WiserTechnology that was paid back in 90 days "In Full "you will see in court! The only reason we have other owners at wiser technology is trade They wanted percentage of Wiser technology like Steve that's why his Wiser N.P.Z, swipeblog and GeekSquash now belong to Wiser technology and I gave Wiser npz away but it's a scam! Just like airport app they wanted percentage also now we own air app let's see Allen and John they were the only ones that were still helping me so I rewarded them onto wiser technology. So please just stop, I really do fear for Beckie or I wouldn't even have bothered with this email I don't care because I know court is coming. And now so do you so STOP!.

Merry X-mas & A Wiser New Year!
