## WiserTechnology.com and Scammer Andy Esquivel!

Posted 10-12-2010 at 11:07 AM by [Scam.com](#)

This WiserTechnology.com is clearly a scam! all should be warned to stay clear! After reviewing the site, they are not a legit company and most of there products are fake and cannot be found and have no real backing. Andy is a con artist and is however being investigated. Andy also uses a scam web site called Xtagged.com to sucker people. There are many out there who have been scammed!
