OH, LADD FOUND OUT ABOUT THE MILLIONS
AFTER THEIR SMEAR CAMPAIGN GOES SOUTH!!!
DARYL, RYION, LADD, CHRISMO, and KYLE WERE
ALL IN ON IT! They just have shame not Ladd!

Just talk to my Attorneys Ladd nobody wants a copy of
your fake contract, Andy; and they said that it wasn't
necessary for you to double paste their emails just to get
noticed and its illegal and all the people you Corbin copied
that wasn't necessary either. But it was funny that through
out the smear campaign you guys were running, now you
think you deserve payment. What happen to you guys
blogging XTAGGED is stupid and XTAGGED is a scam. I
told you guys to just shut up and wait BBBUttt
Noooooooooooo. I own 10% of the company Ladd so it is me
that says who is involved in this and you and Kyle screwed
yourself by helping Daryl. Daryl did not care about you
guys he was helping Andrew & Andrew from yourplates
they told daryl to smear xtagged so they could make a deal
with Mitch Thrower from bump. You see Andrew from
yourplates called me and wanted to make a deal in 2008 so
that we could go to angel founders you know like the
meeting you set up with John (\$700,000,000 That JOHN
from ormniture or what ever... Dude your brother in law at
the meeting said that xtagged was a good idea but then
John told him to shut up I cant believe you miss that. It was
then I knew not to trust him and I did not tell any of you

any more technology secrets like Chimera. Now me and Steve sit on Chimera and Digital Internet Dna that kills Xtagged or Bump to the fullest that's why we are making deal with bump or any of the other big company's **think about it!** is their only one facebook no so why even shut down <http://www.xtag.co> or Xtagged, Mitch Thrower can have both of them or Bing can buy Xtagged and compete against bump or Yahoo can buy xtagged and compete also no matter what my **KarmaCause** gets funded with millions, See Karma it is why I just called and left you a very professional voice mail I have a copy. You were all wrong about Xtagged and Karmacause and Wiser e-cig I have a email from Kyle agreeing with the slander on wiser e-cig he don't even know it but that's going to cost Kyle a lot in damages so even if Kyle got money from me it would come back for wise e-cig damages. I warned you all over and over that God was driving not I... now '*You reap what you sow*' but I would think about that nice voice mail I just left you, trust me I will play it at court and that deal was for you and Kyle only. Chris will be sued by me for the racist emails he sent to me... Peace and God bless remember as my mom says God don't like UGLY!!!

I agree with your points, but I believe you missed three more powerful reasons Google will crater. Google's search engine and its pay per click activities are based upon fraud. And Google is trying to control the Internet, like no other.

The first fraud is that the search engine lists the most relevant web sites for the key search phrases. This is not true. I have proof that my web pages were deleted from the entire search engine for no reason. Yet Google had previously listed these web pages for the specified search phrases at placement 12 through 8 for the previous 5 YEARS. And I had performed not changes to the web pages. This is true for several different search phrases and web pages. Also note that the very same web pages continued to be ranked at placement 1-4 by Google for other search phrases. They deleted (totally not listed whatsoever) the site for one search phrase but not for another.

Google's listings are incomplete, inaccurate and in many cases meaningless, caused solely by Google's breakdowns in their own algorithm. All of this is conducted in total secrecy. Remember Bernie Madhof, and his secret formulas he protected and misdirected the SEC for over 25 years. It was a SHAM from the beginning. I tried to discover what the problems were to make corrections myself, but was stonewalled countless times. Even sent two certified letters to E.Uric Schmidt.

The second fraud is that Google charges their pay per click customers for charges not due. These charges are also performed in total secrecy. In essence Google can and DOES deduct funds from customers accounts, at will, and never have to prove or provide documentation for where the money was used. Sounds like Bernie Madhof again!

The third reason is Google is attempting and Eric Schmidt in particular through insider contacts with Obama to take control of the Internet by eliminating the NET FREE conditions that allowed Google to rise up from nowhere to its too lofty place today. Google wants to create and control faster Internet pipes to allow Google to pop up faster than less wealthy sites. Thus Google would control throughout the Internet which sites load the fastest. This would be like Lehman Brothers, another scam artist, remember the Credit Default Swaps, getting control of the stock or commodity trading floor to have their transactions handled faster than anyone else.

Google is a house of cards that will be uncovered and toppled. Google has to diversify as soon as possible to spread their risks. <http://www.slideshare.net/misteroo/why-could-google-die>

What they are about to do will expose Daryl in full... they said they have tried over and over to get hold of Daryl he never replies back. Andy And Andrew from bump took at least 11 ideas from Xtagged provable because Xtagged don't work unless you have our new research... Chimera D.I.D and a lot more. I am in the process of choosing the right lawyer from Cali, to head this case. Leonard actually cost us more loses. **My mother is trying to prove that Leonard knows what he is doing... but she is starting to see that Leonard just Ripped us off for \$2,600.00. 'Let it go Mom' the new lawyers are not going to charge us a dime... And they will take care of Leonard and Adam for the damages they have done. If you guys can please please call my Mom and tell her that I am right about Leonard so she will wake up... Ask Shars dad how Leonard yelled at my Mom in meeting, she can now use that and much more as the basis to complaint to the state bar.**

I need my MOM to call the bank that Leonard charged \$2,600 to. If I would have used my credit card It would have been done months ago. Leonard needs to be held accountable. MOM PLEASE CALL THE BANK AND TELL THEM ABOUT THE FRAUDULENT CHARGE AND THEN AFTER SHE HAS DONE THAT. I NEED YOU ALL TO CALL AND MAKE COMPLAINT ON LEONARD'S FIRM AND THEN NEW LAWYERS FROM CALIFORNIA WILL TAKE IT FORWARD... ANDRES ESQUIVEL I WISH I WOULD HAVE USED MY CREDIT CARD THIS HAS BEEN ON HOLD FOR A YEAR NOW BECAUSE OF LEONARD'S FIRM LET'S MOVE FORWARD NOW!

P.S yesterday I was informed of some of you getting your own Attorneys just as Shar and his Father. please remember they have family Attorney and that will benefit us, but if you all just go out and get any Attorney you more then likely will end up with a crook like Leonard Martinez so please email Albert first before you sign anything please legal@WiserTechnology.com I have tried to call Leonard more than three times with no call back. It works like this Twitter bomb already copied all [Utahraves followers](#) and following people. Now the program starts following all their followers and following people. So all hits are direct hits to Daryls friends and family 1000 every day, imagine if Daryl used this for his lies, you see how we need Daryl to prove our point as Jesus needed Judas to prove his point! And it would be great if Daryl used twitter bomb on us for his lies and to have that proof of it happening after the fact would show why Chimera and D.I.D are so important! Take a look at Shars facebook <http://www.facebook.com/sharna.jenkins> and his linkedin

<http://www.linkedin.com/pub/shar-jenkins/27/b26/67> NO INFO because of our research Shar and his Dad and colleges removed their info. Wait until you see news report we are going to crack it all open that is why Andrew and Andy from bump are screwed because of the information they held back...

Next example: Chris at Bountiful anytime fitness and his raciest emails, twit bomb works great with proof...

<http://twitter.com/#!/RACISTGYMINUTAH> will be sent not only to Bountiful people but all Anytime fitness twitters 1000 per day. What would they do www.Xtagged.com twitter bomb lol Bump will sue them so fast.

They only have lies lies lies "Xtagged is stupid they blogged" Now a billionaire says it's not Dee Dee Dee! These men brought this on them self and that is why we told Heidi Hemmat that we do have the biggest news story ever. peace and God bless us.

Oh I heard Heidi hates when someone makes a fool of her and Daryl Acumen did that... I told you we had a plan when I showed you Chimera last year by Federal email.

Always remember Daryl don't do anything for free. He was helping Andy from your plates the whole time this smear campaign was in effect all you have to do is listen to Andy's recordings from 2008 and Feb 2011 when Andrew Phillips called me. That is why Daryl used Chris and Kyle, Ladd etc and they don't even know it yet.

Leonard watch this link below.

<http://www.youtube.com/watch?v=RFUYyGPVRTI>

Leonard look at Xtagged in 2008 listen close to the DJ about Tommy Lee maybe than you will see why Ryion and Daryl Started smear campaign June of 2009. Shar you know what these guys have done first hand I am glad your going to be at the meeting with your father. Even if Leonard don't understand how much xtagged is worth Shar he still should have stopped the bull with wiser that is why Steve is upset! The

timeline is awesome Shar, Bump don't have crap on Digital Internet Dna, Shar we already had offers of funding for D.I.D and Chimera but what would you think if you were a millionaire investor and then ask us why haven't you taken legal action. Shar you know that's why your Father is so confused and the other big investors that you have brought to the table are also.

The day I took you to Leonard Shar remember... and Leonard didn't want to talk to you and you just went back and met him. Why would he not want to hear your testimony bro look what happened to you Shar when your colleagues found the blogs about the S.E.C and Andy the scammer. I only had \$175,000 in investors big deal that was my budget for three years www.bump.com has put 1.1 million in to bump in one year bro!!! Shar that day you went to Leonard's office he had told me that the S.E.C did not even start a investigation... Seven moths later!!!! Does that make sense,

here you have Daryl and Ryion first telling you and Steve that I had hundreds of investors and millions of investor dollars you remember Shar December of 2009 when Steve was trying to pay them out and then Daryl and Ryion start blogging that the S.E.C is doing an investigation for the past 18 months and then Leonard says that they never even did a investigation WTF! So I told Leonard why haven't you called the S.E.C and stopped Daryl and Ryions lies on blogs and Fox news blogs because we have proof that it never happened and Leonard said Nothing... Bro this new Attorney Albert found from Cali is not going to charge me anything when he found out that the guys that made www.bump.com were Andy and Andrew people we were working with and the videos I had to prove they used Xtagged technology he said you need attorneys "just like the ones in Facebook the movie" Shar look at all the money you lost in car cover and wiser e-cig promos. Have fun guys

Becky will be in the meeting also she demands it because her brother used to work for the S.E.C and Becky called Leonard from his house last memorial day and she has got some questions for Leonard. So I wish I was going to this meeting in Vegas with some sense of explanation to give them about Leonard but as you see I am very confused of why Leonard is even charging us \$2,600 dollars for what talking to Daryl and Ryion very confused.

To all my friends that stuck with me call 770-709-4737 we are hiring... and need Distributors for each State. And this video below is dedicated to DDDaryl Acumen and Adam Platte his so called lawyer and you will pay for all damages you have done.

<http://www.youtube.com/watch?v=rhykeqJzNw4>

Daryl I will make sure that John Texas, Becky NC and Lalo from Cali send you pics also since you like to count them!

We also sell the same e-cigarette as www.greensmoke.com they get them from Sam. They really don't sell as much as our platinum wiser from Willy. Nobody likes the big ass e-cig that comes in Sam's model one big, one small. Our platinum wiser has two mini e-cigs. And we will soon discontinue Sam's model it still will be under warranty of course. But will be replaced by Willy's Wiser model.

God bless you all ! & Xtagged did not WORK! Until Steve Klemark came on board you will see.

Thank You Much! Andres Esquivel

Yes, I will have Stephi send it out. I am sorry about changing 18 to 21 but the Karma from keeping track of members so we can help them quit smoking nicotine all together comes first and 18 is so young. I hope you understand.

I would like to keep track of people 18-25 and give them incentive to quit smoking! What do you think about buying their wiser e-cig back for 50% of full price (because you still make money on filters) and making a hall of fame quitters page on Wiser Technology? My step mom Marce quit after 33 years of smoking 1 pack a day; that is why I was so committed to making Wiser e-cig -- true story.

Well, my uncle was the first reason. Because of him I put **Time to X out Smoking** link on the front page of www.xtagged.com in 2007 which lead to <http://www.becomeanex.org/> That is how I learned of electronic cigarettes so early and research for e-cig bluetooth app was born. It's all about Karma.

In 2007, I also put link to **M.A.D.D. X OUT D.U.I.** front page of www.xtagged.com hoping my father would stop drinking when he watch the news on Xtagged. That is how Buzz/Wiser was born and now my Father doesn't drink anymore even with all of the stress over the last 18 months due to the lies and blogs these men have done. True story.

The no pump car cover idea came to me here in Denver with Steve. We were at the stadium and a hail storm hit and I had to watch people scramble to cover cars. Hail storms are frequent here. And remember when Chris came up with shelter tents that you could easily blow up using pressure from car tires and Daryl blogged that the shelter tent idea was stupid!!! Look at the way things are in Japan all the cars that are damaged_ that could be filling up with pop-up shelters with air from the tires. If the car is sideways or upside down you can't use it as shelter can you and cars don't float either.

So now you know; Karma First and Money Second because you can't take the money with you when you die, you just leave it to your kids. The funny thing about that is how long will money last with the way things are going. Watch zeitgeist link (<http://www.zeitgeistmovie.com/>) but www.KarmaCause.info will be Forever and we do take karma with us when we die.

Brian in Bountiful Utah offered 20 million in 2008 for xtagged, but at the time we had no solution for all the dangers of plate searches. So instead of taking the risk of telling him about our new research, I just declined the offer and came to Denver with you and Steve. That is why Ryion and Daryl started all the bull crap on blogs well Daryl because of his mom becoming C.E.O.

It is all about Karma and Daryl will learn that meaning in court.

Leonard I guess is still out of the country, but I will email you as soon as I know when the meeting is.

*Does Mr. Thrower Know about Steve's Chimera and D.I.D? **I have sent him copy of emails but I think your right he was scammed.***

You heard Andrew and so called Andy his name is Andrew also he just took the name Andy because I was on the news as Andy get it!

I really don't care for either Andrew, Steve's system out dates bump by at least 5 years and they don't believe that Steve is real that's how I know they are in on it with Daryl. Andrew kepted saying what does Steve do at the Denver P.D when I told him halo program he got quiet as you could hear.

They should have watch all videos on youtube they would have seen all the proof for them selves they are just about the money...

***NO RESEARCH** that's why when I told Andrew Phipps about one of the things wrong with system he did not know what to say.*

I learned this greed when Andy couch called me before my interview in 2008.

And I did not extort them OMG I was trying to get them in contact with Steve I am sure they went to his <http://www.linkedin.com/in/wisertechnology> and saw all members of the Denver P.D and news producers linkedin I bet Mr. Thrower is out of the country and they are trying to hide this I don't know why else they would get so evil oh yeah maybe GREED!

I will cc Mr. Thrower so you have his email OK.

And God bless you guys don't let greed ever do this to you K Wiser e-cig is going to be big so read this email if you ever feel as you are falling to the mercy of money.

P.s if you talk to Steve tell him I Finished Xraza phone K

Would it be OK if we sent this message below to all members of Xtagged? And my Attorney needs to meet with you about www.Bump.com? I watched social network about facebook this weekend. They sued for Hundreds of millions with no patent, all Mark did was steal log-in idea for college students in my opinion.

Daryl and did so much more and they scammed Mitch Thrower when they did not tell him the dangers of system. Does Mr. Thrower Know about Steve's Chimera and D.I.D?

*I listened to the recording of you and Andrew talking he straight out starts saying he is going to send you to prison for extortion when you clearly told them to work with **Steve Klemark** in the first email you sent and he keeps asking you if you filed taxes because he wants to try and set you up Andy. And when he asked you if you are on probation (WTH) how obvious can these guys be I hope you knew that the other Andy was in the background I can tell by the way he was talking. **Even after you tell them the dangers... They don't give a shit he goes on to threaten you more. What did Leonard say about this?** You need to just let Steve handle all calls please.*

Let me know when you are free to meet up.

Our shipment of wiser e-cigs from china comes in Thursday can we meet then? Texas gets shipment tomorrow John said he will be there at six a.m:) F.Y.I our e-cig shipment is already sold-out again despite the blogs from Daryl I can't believe he is Beckie's son I feel for her. Subject: Karma cause site looks great Andy what are we doing wrong at wisertechnology.com & as for Andrew at www.bump.com

Would it be OK if we sent this message below to all members of Xtagged? And my Attorney needs to meet with you about www.Bump.com? I watched social network about facebook this weekend. They sued for Hundreds of millions with no patent, all Mark did was steal log-in idea for college students in my opinion.

Daryl and did so much more and they scammed Mitch Thrower when they did not tell him the dangers of system. Does Mr. Thrower Know about Steve's Chimera and D.I.D?

*I listened to the recording of you and Andrew talking he straight out starts saying he is going to send you to prison for extortion when you clearly told them to work with **Steve Klemark** in the first email you sent and he keeps asking you if you filed taxes because he wants to try and set you up Andy. And when he asked you if you are on probation (WTH) how obvious can these guys be I hope you knew that the other Andy was in the background I can tell by the way he was talking. **Even after you tell them the dangers... They don't give a shit he goes on to threaten you more. What did Leonard say about this?** You need to just let Steve handle all calls please.*

Let me know when you are free to meet up.

Our shipment of wiser e-cigs from china comes in Thursday can we meet then? Texas gets shipment tomorrow John said he will be there at six a.m:) F.Y.I our e-cig shipment is already sold-out again despite the blogs from Daryl I can't believe he is Beckie's son I feel for her. Has she got to see her grandchild yet?

And Wiserjuana pre-orders are going out the roof I attached pic.

Can we send this out below Andy I changed 18 years to 21 years of age as you requested.

You did not have to threaten me with prison Andrew! If you watched the video that I sent, you can see that all I was trying to do was help you guys, in my first email below I clearly said that you guys should be with Steve Klemark I did not say anything about me so when you said you would get me for extortion you should have waited until I sent you the video. I told you to wait ten minutes but NOOOOOO! I emailed it right when you threaten me. I never asked you for Money!!!

I tried to get you to work with Steve Klemark so you could work together his Dad is 22 years NYPD and he

works for Halo program at Denver P.D. See, you could have worked together for safety!

That's all I was meaning to do look at the emails below. please do not contact me anymore My lawyer Leonard Martinez number is 303-623-3300. God Bless All

Andres,

I just called you and left a message. I'd like to discuss the email correspondence you've sent to BUMP.com and Mitch Thrower.

To be clear, I'm Andrew Phipps Founder of Platester.com and am not the same "Andy at YourPlates" that you had some apparent communications with. The "Andy at YourPlates" that you had communicated with is Andrew Couch.

You stated in your email to BUMP something about "bad data" that "Andy" knew about, I'd like to know what specifically you are referring to in regards to your discussions with Andy Couch.

Let me know what time you are free for a phone call and what number to reach you?

Best Regards,

Andrew Phipps

Andy from www.yourplates.com talk to me before I went on the ksl news he should have told you!

ME ON THE NEWS.

<https://www.wisertechnology.com/PRESS.html>

Look at attachments! The week of July 5th 2008! I told my Attorney that I was not going to continue with the patent because Xtagged had a lot of problems, It was the 4th of July 2008 when we all found out the problem and he said why you have already invested so much why stop.

It was because I had talked to Allen Brady and Allen had told me how Advantia were talking to him and

wanted to pull a quick one over on us so I did not want to talk to Jason no more and he got fired by advantia also.

please notice that the attachments were sent to me July 10 2008 with a secondary reminder on patent and he sent my final bill and charged me for talking to me for 30 minutes "that he tried to convince me to proceed with patent application" he charged me for that! He said all I had to do was give him \$30,000 more I already have given him 15,000 oh and \$3,000 at first for patent search we have all records.

So how could I proceed with Xtagged patent it had a huge flaw that's why we stopped xtagged from working I did not want to get sued I just have it on for court use against Daryl Acumen!

www.xtag.co is also only for looks it is disabled try it, Steve don't want it to work until court!

I came to Denver with Steve Klemark to try and fix it. And Steve Found solution Chimera and Digital Internet Dna (D.I.D) but he owns xtag now so you would have to continue that with him.

peace and GBA Andy

If the driver of the other car has registered their license plate with Bump.com, he or she will receive a text message or an email message. They can decide from there whether they want to respond.
