

I QUIT WISER TECHNOLOGY IN AUGUST 2010 AFTER ANDY LIED ABOUT PAYING MY CELL PHONE AND INTERNET SERVICES. I WAS NO LONGER SERVING AS THE CEO AT THIS TIME. I ALLOWED ANDY TO COME BACK INTO MY LIFE AGAIN; HOWEVER, I ASKED TO BE REMOVED FROM WEBSITE AND TO REMOVE ME FROM EMAIL LIST. I STEPPED DISASSOCIATED MYSELF AGAIN IN NOVEMBER AFTER I LEARNED OF DRUG USE AND HAD VERY LIMITED ACTIVITIES WITH THE ORGANIZATION FROM THAT POINT ON. ANDY'S SPOUSE CALLED ME ON CHRISTMAS DAY TO INFORM ME THAT ANDY HAD A MAJOR ATTACK (see Christmas Hospital Stay) AND HAD TO BE RUSHED TO THE EMERGENCY ROOM.

My Decision to step down from Wiser Technology

Subject: My Decision to step down from Wiser Technology

Dear Team,

After much thought, deliberation and prayers, I have decided to step down from Wiser Technology. I want you to know that it was a difficult decision for me to make. I recognize because Daryl Acumen is my son, it has clouded my image and put into question any decision that I make. As a leader, I need to be free to advise you openly, ask key questions, and offer recommendations. I feel that the current atmosphere will not allow me to affectively achieve that goal. I also feel that it would be unfair, extremely selfish, and unhealthy for all of us if I continue to work for the organization. I would also like to be removed from the xteam mailing list.

Thanksgiving Day will mark one year since Andy came back into my life. The past twelve months have been rewarding yet very challenging and I have no regrets. I will cherish the joy, the laughter, as well as the tears. Hopefully, I have made a contribution and have left a positive imprint on your lives. I leave you knowing that Wiser Technology has a great future ahead. I do encourage you develop clear goals and objectives as well as a clear plan and try hard to stick to it. I also encourage you to promote Karma wherever you go; the world certainly needs it.

I am not certain of the road ahead; I do know that as long as I keep God close to me, I shall succeed in anything that I do. Please continue to keep me in your prayers and if you are ever on the east coast, please know that there is always a vacant bedroom and a loaf of banana bread in the freezer.

I love you all.

Regards,

Beckie

Subject: I Value Your Friendship

My Dear Andy,

If I loved you yesterday, you must know in your heart that I love you today. Love isn't anything that one can turn off and on like a light switch. I wonder if you have ever experienced true and unselfish love and I was hoping that you would be able to see that in me. Love is never having to say that you are sorry. True unconditional love is given freely and it expects nothing in return. True love does deserve honor and it does require respect. When that is lost, then love can deteriorate over time.

Andy, when peeled down to the core, you are a pure and beautiful individual. It is sad that this individual has been ravaged and torn apart by family members, friends, constituents and society. In this capacity, you have thrown up a brick wall to protect yourself as a mean of survival. You are afraid to love or to be loved because to you, love has a negative connotation of pain. Unknowingly, you tend to hurt or destroy others before they can hurt or destroy you. Subconsciously, you don't feel that you deserve love because if you deserved love, then why would your dad constantly beat up on you; why would your mom desert you; and why would Denise use you. None of this was your fault. You do deserve to be loved and you have the most pure form of love given to you by your children. I have a lot of friends that are psychiatrists and clinical psychologists. Without mentioning your name, I have discussed your condition with them. A clinical psychologist would help you to explore these feelings as well as learn how to cope with them rather than suffer from manic depression which is illness that can be controlled.

Your behavior is getting to be more and more destructive. I see it happening; however, I am unable to do anything about. You would NEVER admit it to me; but, I am certain that since July you have been engaging heavily into some type of drug. It could be marijuana or it could be a combination of something else. Drugs and business simply do not go together. To be successful in business, you need a sharp mind at all times. Drugs may cause you to relax; however, that is when your enemies will find you to be the most vulnerable; this is when they will take control and destroy you. If you are suffering from

manic depression, drug use can be a lightning rod. Andy, you NEVER know who is watching you. Unfortunately, most people in business have some ulterior motive. They will do whatever it takes to get in bed with you and poison your soul when you least expect it.

Since I am not in Denver, I have learned to listen with my ears. During the past several months, I have noticed mood swings. You told me early on the affect that marijuana has on you. "I talk real fast, Beckie. I can't stop talking. I giggle." I can also tell you, that you experience memory loss and you become extremely agitated. You placed a call to me on Monday, and I was on another line. When I called you back, you could not remember that you had called me. When you did call me, you were talking 100 miles a minute. When I asked you to repeat something, you became extremely irritated "You don't need to worry about that." Andy, you are saying this to someone that you asked to be your CEO. Whether you mean to or not, what I continue to hear is, "You don't have any role in this company. Just do as I say." When I looked down at my hands and saw how badly I was shaking and felt how fast my heart was racing, I had to ask "Beckie, why are you doing this?"

Since June, I was determined to help you grow this business. I was also determined to find a job to help you find and to pay for a good therapist. I so desperately wanted for you, Sindy and the girls to get away from Denver if for only a couple of weeks. I wanted to help you get a place of your own without any stress. I wanted you to be able to totally relax and connect with the Universe. Fall is extremely beautiful here at the lake; I am two hours away from the ocean and five hours away from the Smoky Mountains. I feel that dream has slowly faded away.

You now have other people to be concerned about. They are extremely innocent and did not ask to be brought into this world. You owe it to them, to Sindy and yourself to get your life back on track. Drugs, of any kind, will not help you achieve that goal. We both know that the ages from 1 – 5 are very impressionable; those kids sense all of your moods and it will have positive or negative impact on their lives and on their future. I know that it is your wish for them to grow up to be strong, healthy and successful individuals. Any free time that you have should be devoted to them. I am still amazed when I talk to you the number of hours that Steve spends at your house. Why is he not home with his wife? If, according to you, he is not making any contributions to the business, then what is the attraction to your household?

Andy, I wish you and your family much success. It took a lot of courage for me to write this email and I hope that you will read it; allow it to settle in; and know that it was written out of love. Stop with the blogs and the Utube videos; you don't need them; they are not professional nor are they flattering. They will eventually destroy you. I also would like for you to view the following link and know that I am sending it out of love and concern. It is extremely difficult and painful to face facts and to learn the truth about ourselves. However, this is the first step in healing and recovering. If you don't trust me, then find someone outside of your family circle that you feel you can relate to. You have often mentioned Allen and that you feel that he is a nice guy; you have also mentioned an

uncle that you feel close to; or what about the nurse that you know from Loma Linda.

I am sure your intent to bcc me on this document was to try and hurt me. You in so many words said that you had provided Steve with a copy of all of the proposals that I worked endless hours to produce. At what point, have I not offered you and your family anything other than kindness, support, and hard work. You would seek to destroy the one person that was your biggest supporter and who would have given you the shirt off of her back. You often talk of God, Karma, and making the world a better place and I suppose this is how you would do it. In life, we will all suffer some type of pain. I suppose it is God's way of determining whether or not we are really worthy. It's how we choose to deal with the pain that will affect us for the rest of our lives. Unless you are able to confront and deal with your own demons, you will NEVER find peace. Money will not solve your problems. Some of the wealthiest people in the world have died lonely and miserable because they were afraid to confront the truth. Today it is Dary and Ryion; tomorrow it will be someone else!!! As long as you allow the cancer within you to continue to take control, until you are able to learn to love yourself, you will not find inner peace and your enemies will continue to destroy you. Hate is a dangerous tool; it has aged man long before their time; and it has killed many. May I remind you of the definition of Karma.

whatsoever a man soweth, that shall he also reap St Paul, Galatians 6-7

Before we are born in this world we decide, while still in the realms of Spirit and along with our higher guides, the lessons we shall pursue here. Spirit helps us pursue these lessons by creating the conditions necessary for us to receive our chosen experience.

Karma is not about punishment. In Spirit there is no absolute right or wrong. It is about experience and fulfillment of purpose.

To whom it may concerns,
We apologize for having to post something again after yesterday, but we were notified that we forgot to address an important issue; the experiment is over. Please stop sending emails and posting blogs/threads to show the need (especially for businesses) to reform the way people interact over the Internet. The situation has proven the need for DID, so for legal reasons, everything needs to stop now. Also, since we have quite thoroughly proven our point, time will solve the rest. We are taking the high ground on this issue and making sure not to harm anyone

around Daryl he has manipulated into doing his will. This way, it will be evident in the end who is the guilty party. Daryl's ship is sinking and he is trying to talk anyone he can into going down with him. Please let him sink on his own. If you do for any reason need to contact Daryl, please do not mention anything about current business. We don't want to give a desperate man with nothing to lose more ammunition.

Thank you all for your continued support! If you absolutely cannot resist making a joke at Mr. Acumen's expense, I cannot say he doesn't deserve it. Just make sure it is at his expense ONLY, and will have no adverse effect on anyone around him.

Thanks again!

Subject: Thank you for all our loyal members. We will not forget the first of you that stuck with us! Thank you for all your support and prayers! All Members BCC

The leadership at WiserTechnology feels responsible for alerting our members of a growing problem. We have received multiple emails from members in Utah asking how they would go about getting their pictures removed from www.PartyUtah.com. If you have attempted to contact them to ask that your pictures be removed for the purpose of separating yourselves from them in the lawsuit and Daryl does not reply back or outright refuses, please do not call our attorney. Bother Daryl's representation Adam Platt (APlatt@HalifaxLegalLLC.com). He is paid by the hour anyway.

Mr. Acumen should have had you sign release form. This has nothing to do with WiserTechnology and, while we sympathize with the dilemma of wanting pictures of yourself taken off a website, you have to follow the rules and contractual obligations. Based on recent actions, it is alleged that Mr. Acumen either does not have the legal representation he claims, or he is just ignoring their advice. This suit will proceed with haste and the truth. Since Mr. Acumen does not possess even close to the amount of assets he would need to pay for the damage he's done, WiserTechnology has decided to proceed on principle and integrity. We will not come out of this richer, but we will emerge with documented proof we were right. That is enough for us, which is why Steve, Becky, Alan and his mother decided to not pursue legal recourse until the conclusion of Mr. Esquivel's case. If our point is made there, that is enough. This situation is no longer out of control because we have regained the upper hand. The truth always winds up doing that in the end. Xtagged has started a portal on front page for the purpose of keeping you informed of the legal process.

We will in no way be entering into correspondence with Daryl. When someone cannot be reasoned with, it is what it is. The blunt racism demonstrated from individuals in Utah has honestly made me lose some faith in humanity.

Ryion, Kyle and Chris, we do not know where you stand in this, which means you should take this opportunity to remove yourselves from this situation entirely. I can imagine Daryl reassuring you that everything is going to be OK and that you guys are going to win. First, you technically cannot win a case if you are the defendant, you just don't lose it. I just wanted to be clear with you on what you are gambling; if the court rules in favor of WiserTechnology, it will be up to the jury to decide who gets charged with slander and/or liable and has to reimburse us for our loses (which we could justify anywhere between the amounts of \$20,000 and over a million). If convicted, avoiding jail time is probably a safe bet, but the suit will leave you bankrupt, you will have a felony on your record that will make businesses very unlikely to ever work with you and you will pick up the tab on our legal fees and your own. If you win, we'll pay Adam. Daryl's most definitely past the point of no return, but you guys are not. Is this really worth the gamble? Please do not force us to involve everyone. I cannot stress enough how much this is not a game.

<http://www.xtagged.com/index.asp>

The truth is, Wiser e-cig, Buzz/wiser, WiserTechnology.com and www.Xvcast.com used his blogs as a spot light to show the need for www.Xvcast.com. We have developed a new, simple way of blogging that will prevent what Daryl did from ever happening again. I do not want to give to much away, because I am under strict instructions from my Lawyer to not mention anything new. If you have any questions concerning Wiser e-cig in Utah, please call Alan Brady at (801) 895-5585.

WiserTech is anxiously awaiting court. We cannot wait till we get to put this whole nuisance behind us.

Thank you for all our loyal members. We will not forget the first of you that stuck with us!
Thank you for all your support and prayers!

Andy Esquivel – Acting CEO

Steve Klemark – CIO

Alan Brady – Co-Owner

P.S. – If you notice below, Rebecca Dunn has temporarily stepped down from her position of CEO of her own accord due to extreme stress and family issues (as we all can only begin to imagine). Please keep her in your thoughts and prayers. Becky, we love you!
